

A collage of various emergency preparedness drills and training exercises, including medical simulations, fire drills, and outdoor training exercises, set against a blue background with a large white question mark and the word 'edness'.

The background is a deep blue gradient. On the left, there is a faint grid of small squares. On the right, there are several concentric, curved lines that create a sense of depth and movement, resembling a tunnel or a stylized eye.

KENT COUNTY HEALTH DEPARTMENT

What Does a Health Department Do?

“If you’ve seen one health department...”

- **Leadership**
- **Core areas**
 - Communicable Disease and Epidemiology
 - Environmental Health
 - Restaurant inspections
 - Wells and septic
 - Clinics
 - Immunizations
 - STI testing
 - Emergency Preparedness

Emergency Preparedness Coordinators (EPCs)

One for each health department

Responsible for:

- Planning
 - Hazard Vulnerability Analysis
- Training
- Exercising
- Responding
- Partnerships!

Strategic National Stockpile (SNS)

- Managed by the Center for Disease Control and Prevention (CDC)
- May be requested by the locals (public health and hospitals) and the state health department
- Delivered in within 12 hours to the state, then redistributed to the local health departments
- Contains antibiotics, vaccines, antitoxins, antivirals, medical/ surgical supplies, and other medical equipment

Point of Dispensing (POD)

It is a dispensing site to supply necessary medical supplies in the event of a disasters, it may contain:

- Vaccinations,
- Medications,
- and other Medical Countermeasures

Types of Pods

Open POD

- Primary means of getting medications to the public
- At various locations throughout the community allowing for large crowds
- OPEN to the public, meant to serve everyone

Closed POD

- Operated by a private business/organization
- Operated for a specific population i.e. residents, students, employees
- NOT open to the public

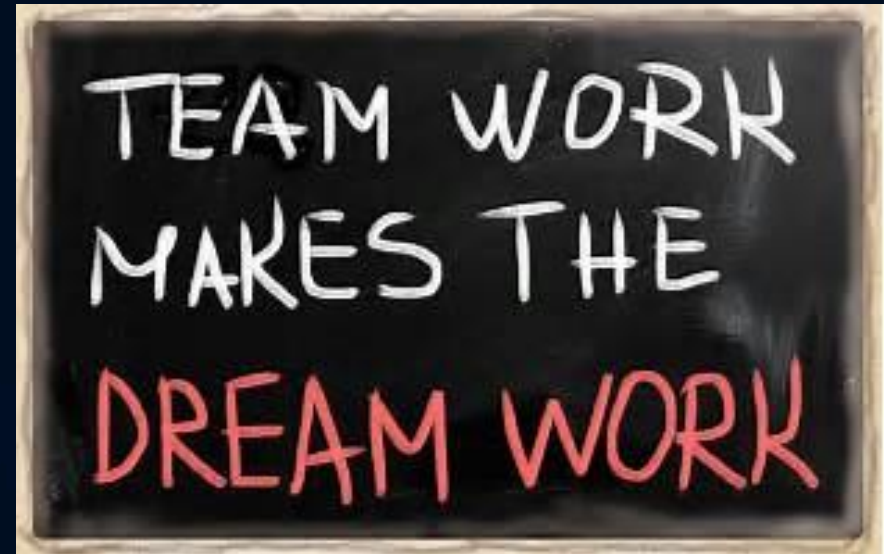

Benefits of being a closed POD

- Ensures timely distribution of medications to your students and staff
- Ensures students are served where they reside without the need for transfer
- Helps maintain your facilities continuous services
- No cost

Let's Be Friends!!

- Find out who your EPC and Emergency Manager are.
- Invite us to be involved!
- Let's talk closed PODs.

TECHNICAL RESOURCES

ASSISTANCE CENTER

INFORMATION EXCHANGE

Welcome to ASPR TRACIE

Brought to you by HHS ASPR, the Technical Resources, Assistance Center, and Information Exchange (TRACIE) was created to meet the information and technical assistance needs of regional ASPR staff, healthcare coalitions, healthcare entities, healthcare providers, emergency managers, public health practitioners, and others working in disaster medicine, healthcare system preparedness, and public health emergency preparedness.

These two videos highlight ASPR TRACIE's first year of service. Learn more from our partners, stakeholders, and project team about how ASPR TRACIE can help you find solutions to tough disaster health challenges.

1/2 ASPR TRACIE: User Comments After the First Year

Save the Date! Highly Infectious Disease Exercise Planning Tools Webinar
Join NETEC and ASPR TRACIE on March 7, from 2:00-3:00 ET on a webinar featuring jurisdictions with first-hand experience developing special pathogen exercise materials and executing related exercises. Learn about the suite of free, fully customizable, ASPR- and CDC-approved, HSEEP-compliant exercise materials NETEC has developed and how these exercises support Ebola-specific HPP measures.
